 --> Comment Text :  
 I do not feel it would be safe to transport nuclear fuel and high level  
 nuclear radioactive waste. This would have to be transported by truck and  
 accidents do happen and could be a national disaster.

Now we have terrorists to deal with. What an opportunity this would be for  
 them to cause complete chaos and death.

I feel we should leave things as they are for the time being. I am sure the  
 majority of Americans feel the same way. Conduct a survey in all the States  
 that these trucks would be traveling through and see how they feel.
