10 VANCE MILLETT: My name is Vance Millett,
11 V-a-n-c-e M-i-l-l-e-t-t, and I would just think that this
12 whole thing should be put to a vote of the people of the
13 State, and since we, the people, are the sovereign state, that
14 the people should rule. If the majority says no, that should
15 be it. Cut and dried. And otherwise, then it -- I just feel
16 that the majority should actually vote on the thing, put it to
17 a public vote, and I think that the project should stop
18 until -- the idea -- until we find out what the people say.
19 That's my comment.
