Comments: (If possible, please reference section and/or page number in document if applicable.)

*You are putting many people in
harm's way for the greed of nuclear
power plants; namely, GE and Westinghouse.
If the government had put as much
money into subsidizing individual's
homes with solar panels & windmills
as they put into the nuclear industry
we wouldn't even need nuclear
power plants and we could keep
our environment free of nuclear waste.*

*Since many people are bound to
die from transporting nuclear waste
because of accidents, terrorism,
and human error, the people who
advocate nuclear power will be
murderers.*

*Yucca Mt. will eventually leak into
the water table and if terrorists
don't get it first and cause
millions of people to die the radioactive
water will kill people, farm animals
and ruin thousands of A.C. farm land.*
