Austin, TX 78746

October 29, 2001

S&WE Products Manager Carol Hanlon
U.S. Department of Energy
P.O. Box 30307 M/S 025
North Las Vegas, NV 89036-0307

S&WE Products Manager Hanlon:

What the hell are you doing? And why don't you listen to the widespread public opposition to this project? Are you deaf? Do you think you are God and can do as you please? Is a healthy and uncontaminated environment so unimportant to you? How does it feel to be greedy, unrespected, and ignorant?

I am writing to express my deep concern over the Yucca Mountain Project and the flawed process railroading it toward approval. How can the Secretary of Energy be preparing to recommend Yucca Mountain for a high-level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement still have not been addressed? Without a Final Environmental Impact Statement, a detailed transportation scenario, finalized Siting Guidelines, or a licensing rule, the Department of Energy lacks the basis for consideration of site suitability. The public cannot have confidence in any recommendation that arises from such a dramatically flawed process. If you have any morals, you'll abandon the Yucca Mountain Project.

Sincerely,

Karen Goelkel
