If you want to receive information about the Rail Alignment Environmental Impact Statement by mail, please check here.

COMMENTS: This format is designed to fragment the opposition to the transportation plan. It appears that DOE calculated that it could minimize the impact, especially in front of the TV camera, by forcing individuals to address anonymous DOE employees instead of addressing comments to a representative of DAF - how possible can this bubble in this room be useful to give an input to a DAF decision?? It feels instead like a tool to let citizens of Nevada let off a little steam.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).
