### COMMENTS:

- 1- Thank you for choosing the Caliente Corridor - good call.
- 2- I recommend the renewal of the Pioche RR Branch line from Caliente. This choice won't impede the development of housing and new home to the East of the Beaver Dam Road community, as the Eccles option will.
3. I support and request that all transportation support/logistical facilities be placed in Caliente.
4. I strongly urge the prompt development of the intermodal location and facility here in Caliente.
- \* 5. I desire to see the alignment early and have mitigation discussions before the draft is issued. This is extremely important to the impacted people.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.
