To whom it may concern,

1 [Dumping nuclear waste at Yucca mountain is a very bad idea. You know as well as I do what the arguments against the location are- the proposed site is in a major fault zone and it is a sacred place for native tribes. Putting the dumpsite inside the mountain there will be a huge problem for public safety in the case of an earthquake and it represents a blatant disregard for the beliefs and practices of our indigenous communities. Please do not build waste facility in Yucca Mountain. You must have the foresight and moral clarity to realize that this plan is both misguided and just plain wrong!]

Thank you for listening.

Sincerely,
Tommy Roberts
