Re: Yucca Mountain

Sir/Madam:

1 [I protest the thought of dumping Nuclear Waste in the heart of the Yucca Mountain. Geologist have made it clear that there are thirteen fault lines running thru these mountains. It is crazy to dump Nuclear Waste in these mountains as It would be just a matter of time before the ground water would be containimated.]

2 I know that Big Business never thinks beyond the \$\$\$'s. [To the Native peoples there is more to consider. We have strived to live in harmony with this land that the Creator gave us. Yucca Mountain is a sacred place to our Shoshone brothers and sisters. For many generations the Shoshone and others have gathered medicine plants from this area. This area is as sacred as the whitemans church, maybe more. This is a place to gather and pray. Do the right thing...let these mountains remain alive and sacred, NOT a "Dumping Ground".]
