To whom it may concern:

I am a mother, a wife, a grandparent, and a teacher in Clark County School District. I live in one of the fastest growing areas of the United States. The air is clean, the mountains are beautiful and the sun is bright. It is a wonderful place in which to raise a family.

1. Many people (whole live far away in the east) want to allow nuclear waste to be placed just 90 miles upstream and upwind from my family, children, grandchildren and students in an area where the soil is already unstable and earthquakes are always possible. The potential hazards are unthinkable.

My husband and I retired here from Texas to enjoy the beauty of nature all around us. We brought our grown children and grand children her to live with us.

Would you ever allow this nuclear waste to be placed in your hometown, upstream and upwind, from your precious loved ones? Would ever consider allowing it to be placed in Kennybunkport, Maine? How can you ever with a clear conscience do that to us?

Nevada is just not some piece of desert in the middle of nowhere as it was a

hundred years ago. It is our home and our heritage. Have mercy on us and our future life here by saying "NO" to the Yucca Mountain Project.]

Sharon Newton, M.Ed.

Wife, mother, grandparent, teacher, citizen of the United States that protects our persuit of life, liberty and a safe homeland for us.
